ABOUT US

NOAH Business Applications is shaped with no less than a team of talented and dynamic roster of Certified Public Accountants and Information Technology professionals. Our clientele includes over 90 conglomerates with 890 attached companies to date.

With our efforts to ceaselessly evolve in integrating IT infrastructure, data, and resources of a company to the current innovations, we bring forth amplified business processes so that your business can explore ways in providing the most unique, and satisfactory consumer experience.

The world has progressed past the point of DOS-based applications making various industries explore readily-available resources that provide customized, distinctive, and appealing experiences to consumers. With something as vital as Enterprise Resource Planning (ERP) in every business industry, one cannot simply thrive without evolving alongside consumer demands. Hence, NOAH Business Applications was born.

2010 Emerged

Since its emergence in 2010, NOAH Business Applications has been specifically structured to address companies' pain points in terms of functionalities related to compliance and performance management. It has been curated to manage tedious technological deliverables to ensure a highly proficient and productive performance in the workforce.

Global Initiatives

NOAH Business Applications • NOAHSYS • PEZA
Recently, a Philippine Economic Zone Authority (PEZA) entity called NOAHSYS Corporation was created using the NOAH Business Applications Intellectual Property value of Php120M as paid up equity for the export activities to US and JAPAN. We have ascended as we start to service Total Resources International, a leading manufacturer of First Aids and Emergency Essentials with headquarters in Lemon Ave, Walnut California.

Another export initiative is the ongoing development of the NOAH Technology Inc. This initiative is primarily established to develop and export software products in Thailand, Indonesia, Cambodia, and Myanmar. NOAH Technology Inc. aims to outsource services particularly in the areas of technical support, programming, systems analysis, training, consulting, configuration and maintenance of various systems.

Implement NOAH Business Applications and harvest the benefits and growth of having a proficient performance management solution.

Experience how NOAH Business Applications' end-to-end single platform technology can guide you towards digital transformation.
